

SCOTTIE® Toilet Rolls FLOWERPACK triple length, 4 roll pack (1 ply, 2 ply)

The long-lasting roll is a product developed by Nippon Paper Crecia that is easy to use for customers and contributes to reducing environmental impact. The triple-length roll is 3 times longer*, so it is compact to carry, and storage space can be reduced, so it can be used as a stockpile in the event of a disaster. In addition, it contributes to the reduction of environmental impact, such as reducing secondary materials such as roll cores and reducing CO₂ by improving loading efficiency during delivery.

*Comparison with conventional SCOTTIE® FLOWERPACK 12 rolls (1 ply, 2 ply)

Contribution to Achieving SDGs through Products

- ● Products that make the most of diverse technologies and know-how contribute to resource conservation such as secondary materials
- Contributes to reducing GHG emissions by improving transportation efficiency
- Uses cellulose obtained from sustainably managed forests
