

School POP®

School POP® is a strawless paper pack for school milk developed by Nippon Paper Industries.

By devising the shape of the pack to improve the ease of opening, pouring, and drinking, children and students can easily open the paper container and drink without using a straw.

Contribution to Achieving SDGs through Products

- Through school milk, you can learn the importance of reducing environmental impact
- ● ● Mainly made from a plant-derived biomass material with low environmental impact related to production and disposal, developed by maximizing the use of various technologies and know-how
- Contributes to reducing marine plastic litter
- Uses cellulose obtained from sustainably managed forests
