

# Nippon Paper Group

## Impact of our activities on SDGs in the value chain

The NIPPON PAPER GROUP, bases itself on the philosophy of "contributing to the enrichment of the lives of people around the world and the development of culture". It is therefore natural that, at each stage of our operations, we are working to strengthen the positive impact on SDG\* targets and to reduce any negative impact.

\* Sustainable Development Goals: 17 goals adopted by the United Nations in 2015 that show global priorities for improving the world by 2030.

### Positive and negative impact on SDGs in the value chain

To the economy, environment and society

#### Strengthening positive impacts

#### Goal 15

##### Land conservation

By proper management of our forests, we enable sustainable use of the forest, its public functions and ecosystem services.

#### Goals 2 7 9 12 14

##### Environmentally and socially friendly products

Technological innovation that further utilizes renewable biomass resources. Through this, we will contribute to environmental conservation and improved resource sustainability.

Raw material procurement

Production

Transport

Sale/use

Separation, collection, recycling, disposal

#### Goal 13

##### Climate Change Measures

We will control the decline of forests by ensuring legal and appropriate procurement. We will also strive to reduce CO<sub>2</sub> emissions in all our business activities.

#### Goals 6 12 13

##### Water Sanitation, land conservation

Emissions of possible pollutants of water, air, or soil, are suppressed to prevent environmental pollution.

#### Goal 3

##### Healthy Life

Preventing sickness and injury in the workplace. Making every effort, through management, safety measures, and education to protect the health and safety of all.

To the economy, environment and society

#### Reducing negative impacts
