NIPPON PAPER GROUP publishes this ESG Databook every year to report to a wide range of stakeholders on its ESG (Environment, Society, Governance) initiatives. The Group also publishes an Integrated Report to communicate its long-term value creation.

The ESG Databook sets out initiatives related to the seven core subjects of ISO26000 as responsibilities related to management, the sustainable consumption of forest resources, the environment, customers, human rights and employment and labor, and communities and society, organizing each item according to the Group's important issues (materiality).
