* Profit attributable to owners of parent
- Net sales increased year-on-year because of price revisions and other factors.
- Operating loss was recorded due to the continued harsh business environment caused by soaring raw materials and fuels prices.
- Extraordinary gains were recorded due to the gain on sales of investment securities i.e., the sale of crossshareholdings and others. Extraordinary losses were recorded due to the loss on withdrawal from graphic paper business of Opal, and impairment loss of the shutdown of N1 Paper Machine and others at Akita Mill. The costs along with voluntary retirement were recorded.

- Expecting higher sales year-on-year by reorganization of production system in graphic paper business, cost reductions with reducing coal consumption and realization of price revision effects for various products. Consequently, operating income is expected to be profitable.
- However, the full-fledged recovery in earnings is expected to realize in the second half of the FY2024/3 due to the high prices of carry-overed inventories such as raw materials, fuel and products at the end of March 2023. And effects of the workforce rationalization to be implemented as part of Opal's withdrawal from the graphic paper business are expected to be realized in stages.
