## $1^{\text {ST }}$ HALF FY2022/3 FINANCIAL REVIEW

November 5, 2021 SHAPING THE FUTURE WITH TREES

## Consolidated Statement

* Profit attributable to owners of parent
- Net Sales increased against last year. Though the application of accounting standard for revenue recognition from the current fiscal year provided the negative impact, that was outweighed by the impact of two positive contributors, the demand recovery from Covid-19 and acquisition of Orora Limited's paperboard and fiberbased packaging business in Australia and New Zealand at the end of April 2020.
- Higher raw material and fuel prices results in challenging business environment. Nevertheless, operating income increased compared to the last 1H because it recorded the acquisition-related expenses of Orora Limited's paperboard and fiberbased packaging business in Australia and New Zealand in the previous year.
